I have written to the Federal Golf Club today formally advising that the Government will not support a residential redevelopment proposal at the Golf Course in Red Hill.

I formed this view after careful consideration of the advice and opinions of a range of government agencies, environmental and community groups.

In 2009 the ACT Planning and Land Authority circulated a planning report for a proposed housing development at the Federal Golf Course which would rezone the site from PRZ2 - Restricted Access Recreation to RZ4 - Medium Density Residential.
